Please select the method used to obtain the VGM

○	Method 1: upon the conclusion of packing and sealing a container, the shipper may weigh, or have arranged that a third party weigh, the packed container.
○	Method 2: the shipper or, by arrangement of the shipper, a third party may weigh all packages and cargo items, including the mass of pallets, dunnage and other packing and securing material to be packed in the container and add the tare mass of the container to the sum of the single masses of the container's contents

In compliance with the International Maritime Organization's SOLAS convention, chapter VI regulation 2 "mandatory container Gross Weight Verification regulation," the undersigned, as the Shipper of record, or duly authorized representative of the Shipper, certifies that the weight of each container referenced on the Bill of Lading is the accurate Verified Gross Mass (VGM) of those containers.
